

FIND YOUR BRACELET SIZE

HOW TO MEASURE YOUR WRIST SIZE

To find your bracelet or bangle size you can measure it in different ways:

1. use a **soft measuring tape** and wrap it around your wrist, just above the wrist bone.
2. use a **piece of string** and measure that with a straight ruler to get your measurement.
3. choose **one of your own** that is almost similar in style and size that you want to buy.

How tight or loose you must fit the measuring tape around your arm depends on the type of bracelet you want to wear:

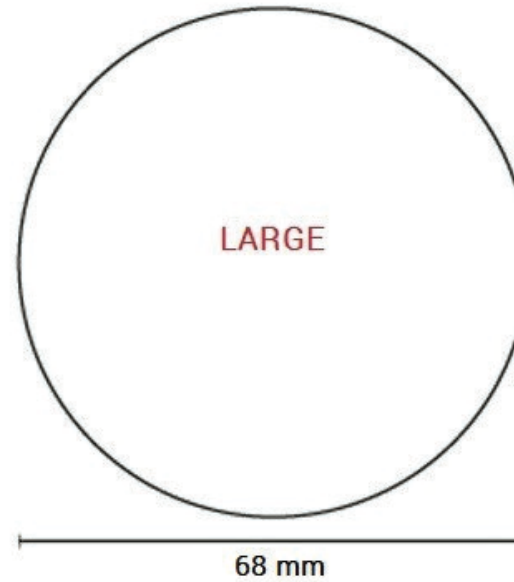

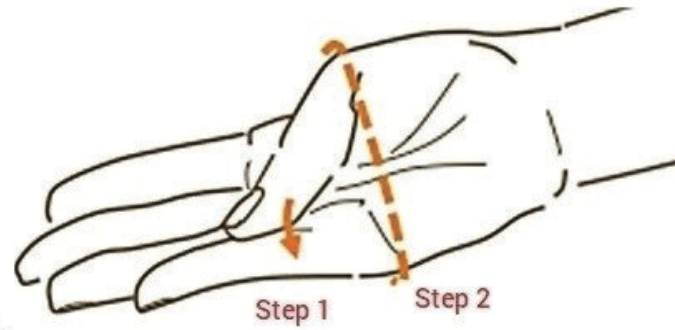

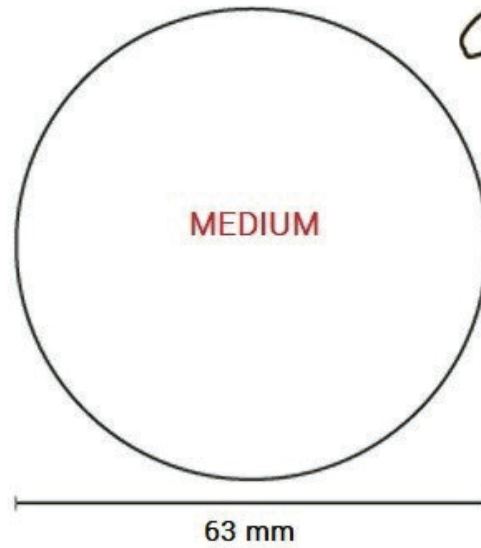

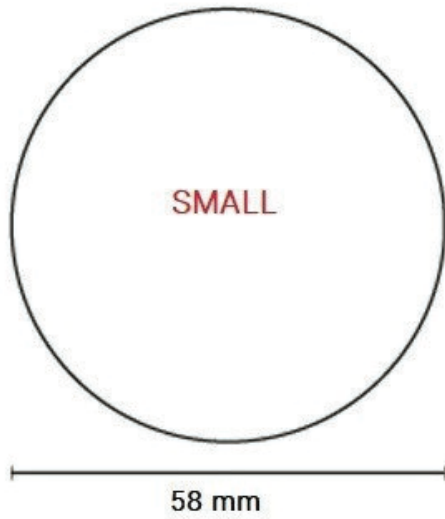

- link bracelet: rather looser
open bangle: rather tighter
closed bangle: your hand can only just slide through the bangle.

Keep this in mind when measuring!

! Print the pages without scaling (100%).
To verify if this page is printed correctly, use a ruler to measure the scale.
=> it should correspond with the dimensions or diameters indicated on the chart.
Place the similar model or the measured tape from your wrist size on the chart to see which size you need.

ArteLocoFab is not responsible for any mismeasurement!

SIZES FOR CLOSED BANGLE: PLACE BANGLE OR MEASURE TAPE ON THE CIRCLE

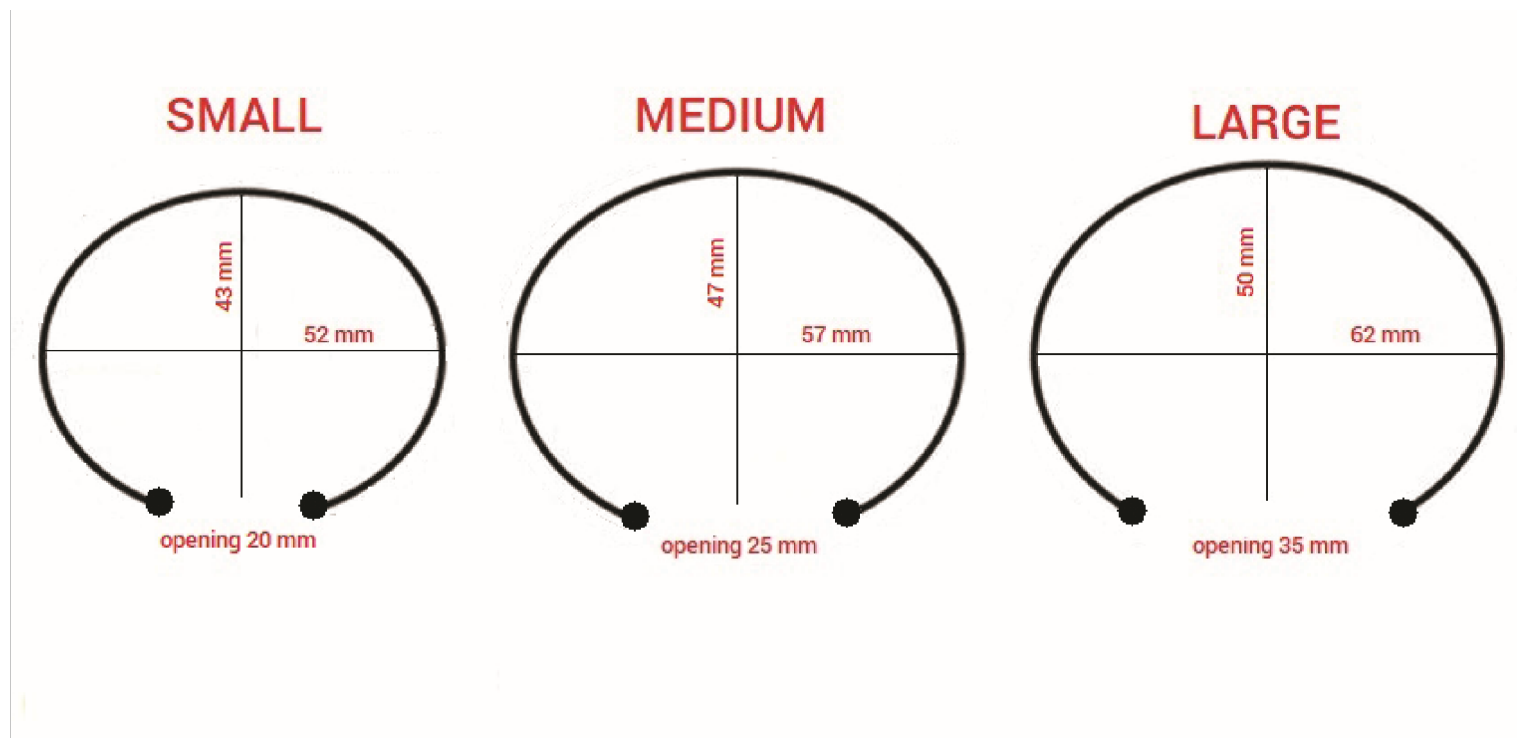

Step 1

Fold your thumb in as far as possible across your hand.

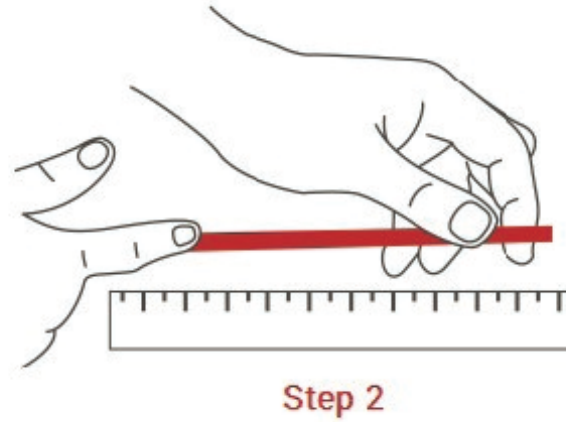

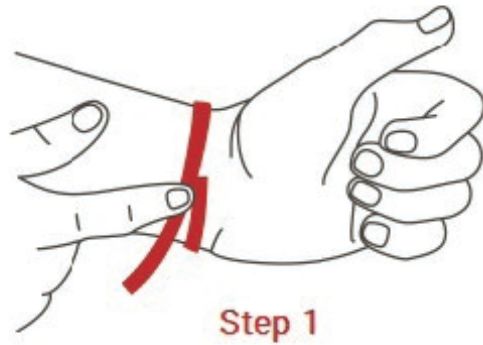

Step 2

Measure over the widest part of your folded hand from the end of your thumb around your hand.

SIZES FOR OPEN BANGLE: PLACE BANGLE OR MEASURE TAPE ON THE OVAL DRAWING

SIZES FOR LINK BRACELET: MEASURE WHICH SIZE YOU NEED

The image of step 2 does not represent reality, please use your own straight ruler.

Step 1: Measure your wrist and pay attention that you wear a link bracelet rather looser.

Step 2: Measure the length of your similar bracelet or the length of the measurement tape.

SIZE	LENGTH
SMALL	15 - 17 cm
MEDIUM	17 - 19 cm
LARGE	19 - 21 cm
